NO. OF PAGES 1

PLACE ACQUIRED  
25X1A  
DATE OF INFO.

NO. OF ENCLS.  
(LISTED BELOW)

SUPPLEMENT TO  
REPORT NO. 25X1X

1. The following is a list of scheduled production of hard coal during October 1951:

Mine	Scheduled Production (tons)	Actual Production (tons)	Percentage of Quota Fulfillment
Karl Liebknecht	97,400	98,492	101.1
Rudolf Breitscheid	19,500	-	-
Total Karl Liebknecht	116,900	98,492	84.3
Deutschland	54,000	59,347	108.7
Karl Marx	40,300	36,700	91.2
Martin Hoop	51,910	56,970	109.6
Freital	12,610	12,341	97.8
August Bebel	-	2,712 (filter charcoal)	-
Zwickau	206,320	267,122	129.5
Ploetz	5,200	5,216	100.3
Total for Soviet Zone	291,520	272,338	93.4

2. The Rudolf-Breitscheid Mine, which was shut down on 2 August 1951 because of a shortage of hoisting cables and later because of flooding, had not yet reopened in October 1951. The draining operations will presumably last until the end of 1951.\*

\* Comment. The totals shown in paragraph 1 are incorrect. It is not known whether the errors were made in the original tabulation or the nonfulfillment of hard coal production quotas was previously reported. See
